

# WORK IN GREEN AREAS

What care needs your garden in the spring  
➔ prepare a list of works in the garden in the spring

## lawn

rake leaves, aerate,  
fertilize, cut

## cutting woody plants

tightly cut the shrubs  
blooming on this year's  
shoots, cut all the sick, weak  
and old shoots.

## flower beds

prepare seedlings of new  
plants, cultivate the soil,  
plant the plants

small architecture maintenance  
and preparation of machines  
and tools

prepare a mower, secateurs and  
other tools for the new growing  
season. paint the impregnating  
wooden fence, terrace, bench ...

## taking off winter clothing

remove covers to protect  
plants from frost  
and wind

## water spaces

clean the pond with dead  
debris, plant new water  
plants, put the fish  
in the water
